Developing holistic strategies that can extend asset life, enhance risk management and safely optimise production

All new agenda featuring 2 interactive workshop days, roundtable discussions, operator-led case studies and much more...

Our esteemed speaker line-up includes:

- **Mannohan Sreedhar**, Integrity Department Manager, ADNOC Distribution
- **Yerem Davtyan**, Account Executive/Reliability SME, Nexus Global Middle East
- **Samir Benmabrek**, HSE Manager, HSEOS, ZADCO
- **Loza Krstin**, Principal Consultant, ABB Consulting
- **Elaine Harbour**, Head of Liaison, Middle East Health & Safety Executive Worldwide
- **Dr. Fawzi Banat**, Chair of Chemical Engineering Department, Petroleum Institute
- **Hicham Houmane**, Technical Data Officer, ZADCO
- **Dr. Clarence Rodrigues**, HSE Manager and Associate Professor of Mechanical Engineering, Petroleum Institute

Lower oil prices, rising operating costs, increased risk and operational complexity means that the need to increase the reliability and uptime of current assets has never been greater!

Attend this conference and learn how to:

- Put life extension and asset protection first by mitigating internal and external corrosion to reduce the risk of failure and downtime
- Focus on efficiency improvement strategies to optimise processes for increased asset integrity management
- Pinpoint the ways to minimise risk, reduce costs and downtime across all aspects of asset operations by implementing effective inspection and maintenance programmes based on equipment criticality
- Get significant reductions in maintenance spending and increased productivity by adopting Reliability Centred Maintenance (RCM) programmes
- Integrate Asset Life Extension (ALE) and obsolescence strategies into operations so as to proactively identify and track which equipment or components are or could become obsolete
- Evaluate the latest technologies that can be used to ensure the assets vulnerable to ageing are inspected to avoid shutdown or failure

More speakers include:

- **Amey Kulkarni**, Senior Safety Engineer, ADNOC
- **Moussa Sadj**, Technical Safety Manager, BOD Project
- **Nazmiwati Binti Samsudin**, Process Safety Engineer, Borouge
- **Maher M. Al-Dughaim**, EHSS General Manager, Methanol Chemicals Company
- **Mohammad Riaz Shareef**, Engineer Safety and Ex-President ASSE Kuwait Chapter, KNPC
- **Amal Barwais**, Corrosion and Metallurgy Engineer, GASCOC
- **Ignatius Prashanth**, Senior Process Safety Engineer, Al Hosn Gas
- **Mosad M. Hamza**, Maintenance Superintendent, Takreer

Welcome to the Asset Integrity Management Abu Dhabi conference 2016!

THE LOW OIL PRICE AND “AGEING ASSETS”

Dear Colleagues,

It is my pleasure to invite you to the Asset Integrity Management Abu Dhabi conference at the Eastern Mangroves Hotel & Spa by Anantara in Abu Dhabi. Our asset integrity management series outlines our commitment to working with operators, regulators and stakeholders to improve asset integrity in the hydrocarbon industry by providing such platforms to share best practices, discuss learnings from past experiences, and highlight new developments.

Based on extensive research with experts, the Asset Integrity Management Abu Dhabi conference will deliver a comprehensive technical agenda on asset life extension and ageing assets which is moving firmly up the agenda for oil and gas operators as the majority of assets in the Middle East are operating beyond originally intended design life. The key factor driving ALE is the low oil prices and the conference will cover strategies such as technology advances, updated design standards, need to manage risk and ensure safe operation, enhanced focus on safety, HPHT & sour environments, and changes in reservoirs that can help ageing assets.

We have been fortunate to be able to draw upon some of the region’s foremost experts and thought leaders in asset integrity to organise a conference solely designed to help improve the integrity of the assets. We recognise that leadership across knowledge and competence, engineering and design, systems and procedures, assurance, human factors and culture are fundamental to managing asset integrity and you will see these topics reflected across in this edition.

Operators at the conference will be delivering case studies on how to lengthen the operating life of oil & gas assets, platforms and their supporting infrastructure to optimise efficiency and profitability, whilst ensuring regulatory compliance. You as an attendee will be able to gain insights into crucial integrity challenges such as the risk of running an ageing asset, bearing in mind the “ageing” problem, and the low oil prices” by participating in the interactive roundtable discussions, Q & A sessions, panel discussions and industry-specific case studies on the latest initiatives taken by other operators.

With presentations from both upstream and downstream sectors, this conference has been designed to make your time out of the office completely beneficial. Ultimately driving this year’s agenda is cost and new technologies, so take note of the tailor-made registration package comprising of two workshop days and a two-day conference.

Also remember to book and pay early to save. Ask your training department to contact us straightaway to benefit from the early bird discount.

I look forward to seeing you at the Asset Integrity Management Abu Dhabi conference in April 2016!

Kind regards,

Andrea Fernandes
Senior Conference Director
IQPC Middle East

What makes this conference a ‘must-attend’ event for AIM professionals?

AIM remains the industry leader for tackling structural and life extension issues. It’s for this reason that we attract all of the operators, leading contractors and service providers each year to partake in our AIM series of events.

We have organised interactive panel discussions and included interactive roundtable discussions, which are excellent opportunities to build long-term relationships and engage in discussions with industry colleagues who face the same challenges as you every day. There are strictly no sales pitches during the conference and vendors presenting will provide case study examples of relevant and valuable integrity solutions.

We researched and we listened!

Over the past 18 weeks, we have been vigorously conducting in-depth research into the current integrity practices in the Middle East region to create an expert agenda developed for the industry and by the industry.

You may also be interested in our other AIM events:

11TH ANNUAL ASSET INTEGRITY MANAGEMENT SUMMIT
6-9 March 2016 - Muscat, Oman

ASSET INTEGRITY & RELIABILITY QATAR
15-18 May 2016 - Doha, Qatar

DON’T JUST TAKE OUR WORD FOR IT:

“An excellent forum in which we get to share and learn about each other’s asset integrity improvement journey”
Chris Breeze, Shell Oman Country Chairman

“Excellent event with high quality presentations”
Mahendran Gurusamy, Senior Engineer Process Safety, Orpic

“Our assets are safe and we know it!”
Orlando De Matos, Head of Inspection Department, GASCO

“The LFI Day was insightful with some excellent subject matter from oil majors”
Allan Grieve, Operations and Maintenance Manager, Shell Development Oman
The Asset Integrity Management series is attended by decision makers related to integrity, pipelines, corrosion, safety, inspection and maintenance of facility equipment from across the Middle East and globally. If this falls in your remit, then you cannot miss this event to meet and discuss with your peers in the region about the latest asset integrity strategies.

IQPC provides business executives around the world with tailored practical conferences, large-scale events, topical seminars and training programmes, keeping them up-to-date with industry trends, technological developments and the regulatory landscape. IQPC conferences are market leading “must-attend” events for their respective industries. IQPC produces more than 1,700 events annually around the world, and continues to grow. Founded in 1973, IQPC now has offices in major cities across six continents including: Bengaluru, Berlin, Doha, Dubai, London, New York, Riyadh, Singapore, Sydney, Tampa, and Toronto. IQPC leverages a global research base of best practices to produce an unrivalled portfolio of conferences. www.iqpc.ae

“Good level of experience and expertise of all the speakers, presentations very impressive and relevant.”
Andrea Bowes, EOM Maintenance & Integrity Team Leader, Petroleum Development Oman

“A very pragmatic approach into the processes used in root cause investigations and the importance of lessons learnt!”
Gavin Lyra, Manager Projects and Operations, Japan Australia LNG

</thead>
<tbody>
<tr>
<td>08:00</td>
<td><strong>Registration, coffee and networking</strong></td>
</tr>
<tr>
<td>08:50</td>
<td>Opening remark from IQPC and introduction to session chair</td>
</tr>
<tr>
<td></td>
<td>Andrea Fernandes, Senior Conference Director, IQPC Middle East</td>
</tr>
<tr>
<td>08:55</td>
<td>Opening remarks from the summit Chairman</td>
</tr>
<tr>
<td></td>
<td>Dr. Ali Al Zubaidi, Managing Director, Integrated Management Systems</td>
</tr>
<tr>
<td></td>
<td>Associates (IMSA)</td>
</tr>
<tr>
<td>09:00</td>
<td><strong>Regulator perspective on Asset Integrity Management (AIM) for aging assets</strong></td>
</tr>
<tr>
<td></td>
<td>This session will provide information on Aging and Life Extension (ALE) challenges in the oil and gas industry and will identify areas of industry strengths, and areas for additional focus, which can deliver improvements for long-term management as well as assurance of workforce safety.</td>
</tr>
<tr>
<td></td>
<td>Elaine Harbour, Head of Liaison, Middle East Health &amp; Safety Executive</td>
</tr>
<tr>
<td></td>
<td>Worldwide</td>
</tr>
<tr>
<td>09:30</td>
<td><strong>Discussing crucial ADNOC regulations and standards for asset integrity management</strong></td>
</tr>
<tr>
<td></td>
<td>This session will outline the long term plan to improve standards, guidelines and practices for achieving safety and integrity. It will cover the overall guidelines on risk assessment and address how the Quantity Risk Assessment (QRA) tool can be used to ensure asset integrity management for new and aging assets.</td>
</tr>
<tr>
<td></td>
<td>Amey Kulkarni, Senior Safety Engineer, ADNOC</td>
</tr>
<tr>
<td>10:00</td>
<td><strong>Case Study: Asset Integrity approach to achieve excellence in process safety</strong></td>
</tr>
<tr>
<td></td>
<td>This session will cover the Major Accident Hazard focus by identifying HSE Critical Equipment &amp; Systems (HSECES) and will cover demarcation of HSECES at Equipment Tag Level. It will show how you can devise inspection &amp; maintenance strategies based on Functional requirements of HSECE.</td>
</tr>
<tr>
<td></td>
<td>Ashish Kulkarni, Technical Centre Head, Bell Energy</td>
</tr>
<tr>
<td>10:30</td>
<td>Networking coffee break</td>
</tr>
<tr>
<td>11:00</td>
<td><strong>Alignment of Asset Integrity Management Systems with HSE management systems</strong></td>
</tr>
<tr>
<td></td>
<td>This presentation will cover the key performance indicators (KPIs) and tools needed to align assets with its assessed needs. It includes the groundwork needed for continuous improvement for the operators as well as for sub-contractors and suppliers whose performance has an impact on the organisation for integrity related purposes.</td>
</tr>
<tr>
<td></td>
<td>Samir Benmehbarek, HSE Manager HSEOS, ZADCO</td>
</tr>
<tr>
<td>11:30</td>
<td>Process safety culture influencing in Asset Integrity</td>
</tr>
<tr>
<td></td>
<td>This session will cover the challenges in process safety which influences the integrity of assets such as Management of Change, Work Permit Systems, and Aging Facilities and defines how it can be managed effectively to ensure safe production and save cost on long term basis.</td>
</tr>
<tr>
<td></td>
<td>Nazmawati Binti Samsudin, Process Safety Engineer, Borouge</td>
</tr>
<tr>
<td>12:00</td>
<td>Improved asset integrity and increased production efficiency through the targeted maintenance of pressure safety valves</td>
</tr>
<tr>
<td></td>
<td>This session cover the implementation procedure for determining optimum inspection frequencies for pressure safety valves (PSVs) and the assessment methodology based on expertice of the failure mechanisms of PSVs and likelihood of failure to open on demand and how typical outputs from previous assessment work indicate that around 70% of PSVs could have their maintenance and inspection intervals increased, by up to 6 years.</td>
</tr>
<tr>
<td></td>
<td>Laza Krstin, Principal Consultant, ABB Consulting</td>
</tr>
<tr>
<td>12:30</td>
<td><strong>Lifecycle Management of HSECES as a strategy AIM for Critical Equipment and Systems</strong></td>
</tr>
<tr>
<td></td>
<td>This session will address the management of Critical Equipment and Systems through a facility lifecycle to improve Asset Integrity by preventing Major Accident Events and or limiting the potential consequences of a Major Accident. It will also detail the metrics for measuring the performance of such equipment to ascertain if integrity is sustained to ensure assurance, provide insight of how the strategy could be used to reduce the overall business and safety risks to enhance productivity and ultimately profitability.</td>
</tr>
<tr>
<td></td>
<td>Vincent Oghuvwu, Engineer - Process Safety, TG-TECHNICAL COMPLIANCES, Borouge</td>
</tr>
<tr>
<td>13:00</td>
<td>Networking lunch break</td>
</tr>
<tr>
<td>14:00</td>
<td><strong>Master class: The role of process safety in ageing assets</strong></td>
</tr>
<tr>
<td></td>
<td>Explaining the role process safety plays in preventing MAH to a diverse workforce can be complex. Because the likelihood of MAH occurring is extremely rare, an even bigger challenge can be engaging that workforce so they understand the risks involved and their own roles in helping prevent accidents. This master class will cover how the workshop leader has focused on two North Sea aging platforms, and went offshore to both assets several times over the course of a year to meet with the workforce to raise awareness and to determine how engaged and informed they were about process safety and will share her expertise and experience for the same.</td>
</tr>
<tr>
<td></td>
<td>Ayssar Hanza, Lead Engineer (Process Safety) - GPO Global Concept Development, BP Exploration Operating Company Ltd</td>
</tr>
<tr>
<td>15:30</td>
<td>End of conference day one</td>
</tr>
</tbody>
</table>

08.00 Registration, coffee and networking

08.55 Opening remarks from the summit Chairman
Dr. Ali Al Zubaidi, Senior Conference Director, IQPC Middle East

08.55 Opening remarks from the summit Chairman
Dr. Ali Al Zubaidi, Managing Director, Integrated Management Systems Associates (IMSA)

09.00 Assessing the need to integrate assets management into an integrated operating management system
This presentation will cover the logic of integrating asset management into a unified operating management system and will cover the concepts.
Dr. Ali Al-Zubaidi, Managing Director, Integrated Management Systems Associates (IMSA)

08.55 Opening remarks from the summit Chairman
Dr. Ali Al Zubaidi, Managing Director, Integrated Management Systems Associates (IMSA)

09.00 Assessing the need to integrate assets management into an integrated operating management system
This presentation will cover the logic of integrating asset management into a unified operating management system and will cover the concepts.
Dr. Ali Al-Zubaidi, Managing Director, Integrated Management Systems Associates (IMSA)

09.30 Improving operations efficiency while reducing costs and risks
This session will focus on how to optimize asset maintenance strategy to achieve sustainable results. It will showcase the time saved and the effort on maintenance planning while improving quality. It also addresses LEAN maintenance as a foundation of continuous improvement.
Chuma Chukwurah, Director Middle East/Africa, Nexus Global United
Yerem Davtyan, Reliability SME, Nexus Global United

10.00 Implementing ISO 55000 for developing a long-term asset management plan that incorporates the organization’s mission, value and objectives
This session will provide a comparison session between ISO 55000 with PAS55 standards to identify where modifications are needed and attendees will be able to get insights on the roadmap to planning and implementation of this.
Ahmed Hussein Ragab, Senior Planning Engineer – Zirku, ZADCO

10:00 Implementing ISO 55000 for developing a long-term asset management plan that incorporates the organization’s mission, value and objectives
This session will provide a comparison session between ISO 55000 with PAS55 standards to identify where modifications are needed and attendees will be able to get insights on the roadmap to planning and implementation of this.
Ahmed Hussein Ragab, Senior Planning Engineer – Zirku, ZADCO

10:30 Networking coffee break

11:00 Case study on Al Hosn Gas’ in-house innovative approach for risk assessment
This session will cover the extensive work has been carried out in the quantification of personnel risk in compliance with ADNOC Codes of Practice.
Ignatius Prashanth, Senior Process Safety Engineer, Al Hosn Gas

11:30 ADNOC Distribution case study: Assessing the integrity of buried storage vessels
This presentation will cover the latest challenges and management of integrity of Underground Storage Tanks (UST) typically used in large numbers at petrol pumps and service stations, found in both mid-stream and downstream petroleum facilities. Attendees will learn why molded bullets have become increasingly popular in comparison to above ground bullets and the set of new challenges that users can face.
Manmohan Sreedhar, Integrity Department Manager, ADNOC Distribution

12.00 Life time extension strategies: Focusing on data collection challenges
This session will cover challenges related to data collection, availability and assessment, such as qualitative versus quantitative and data reliability. The case study will show the uncertainties and the associated additional cost that are incurred and recommendations that can be put in place in relation to data collection planning.

12.00 Life time extension strategies: Focusing on data collection challenges
This session will cover challenges related to data collection, availability and assessment, such as qualitative versus quantitative and data reliability. The case study will show the uncertainties and the associated additional cost that are incurred and recommendations that can be put in place in relation to data collection planning.
Hicham Houmane, Technical Data Officer, ZADCO

12.30 Devising a comprehensive asset-management strategy to boost bottom line
This session will address how asset-management strategy can positively affect a wide range of operational metrics, such as overall equipment effectiveness (OEE) and return on net assets (RONA).
Maher M. Al-Dughaim, EHSS General Manager, Methanol Chemicals Company

13.00 Networking lunch break

13.30 Master class: Managing aging assets and implementing effective life extension strategies
Led by an industry expert this masterclass will cover how to manage assets that have crossed their design life. It will focus on how to find the optimal replacement timing for critical equipment and how to upgrade and make life extension decisions.
Dr. Ali Al Zubaidi, Managing Director, Integrated Management Systems Associates (IMSA)

15.30 End of conference day two
Use the oil price to your advantage: Claim your market share and secure contracts for 2017!

The potential to win new business with domestic and international operators has never been greater! By working with us to build a tailored exhibition and sponsorship package, together we can ensure that you receive maximum exposure at the conference. As each package is built for you, we can ensure your business needs are met - whatever your budget is!

IQPC has been hosting events developed for senior executives for more than 40 years. We serve businesses representing over 15 sectors at more than 1,700 conferences around the globe. Our client list includes corporations such as IBM, Cisco, Microsoft, Lockheed Martin, Boeing, Weatherford International, Halliburton, ABN AMRO, Deutsche Bank, GE, Siemens, BASF and Dow Chemicals, just to name a select few. Senior executives travel from around the world to our events looking to garner best practises and concrete solutions to assist them in improving their organisations. IQPC provides many different platforms for you to increase your market share, stay ahead of your competition, increase awareness to your target audience and position yourself as a key supplier to the oil and gas industry providing integrity management services.

5 ESSENTIAL REASONS TO SPONSOR.

1. Independent analysis and interactive discussion: Advanced learning environment and benchmarking opportunities through which you can discover your industry peers development and successes from the region and around the world. Who is moving on asset life extension and in which direction?

2. Customise your conference experience: To complement the event we are working with key industry professionals to deliver enhanced learning experiences in the form of workshops

3. Unrivalled networking opportunities: Recognising that the quality of the attendee is critical, the event will only bring together the region’s most proactive industry specialists

4. Holistic coverage of business critical issues: This multi-disciplinary subject deserves extensive and comprehensive coverage of the subjects major issues and key learning points

5. Senior decision makers will be attending this conference to evaluate the best strategies and tools for their company’s E&P data and knowledge management systems. Decisions will be made. Partners will be chosen. People will be influenced by the discussions taking place at this event. Does your organisation need to be in the room when all this is happening?

Can your business help lower the cost and improve the efficiency of existing assets? Do you have cutting-edge asset life extension services or products? Do you want to be visible at the Asset Integrity Management Abu Dhabi conference?

If the answer is yes, then get in touch to discuss how the conference can help you achieve your objectives and win business.

Call Nawaz Ali at +971 4 360 2800 or email sponsorship@iqpc.ae to discuss different sponsorship opportunities and help design a tailor-made package for you.

BUILD THE PERFECT PACKAGE IN 3 SIMPLE STEPS!

1. THINK ABOUT YOUR DESIRED GOALS

   Engage with key customers, including the full spectrum of operators and contractors

   Successful product launch

   Platform demonstrations

   Meet new clients and build relations

   Stay ahead of competition

   Brand visibility / recognition

   Speak to your target audience

   Private meetings with clients

2. WORK OUT YOUR BUDGET

   Speak with your marketing team and decide on your investment – make sure you assign the right budget to the right show!

   No matter what your budget, we will work with you to build a package that achieves your aims and exceeds expectation

3. Call us at +971 4 360 2800 to discuss your package!

   “The only feedback I can provide is that this conference was one of the best I have ever participated in. The whole event was executed smoothly and efficiently onsite, I cannot thank you and everyone involved enough. We now have a number of good leads to follow up on, I’m staying on in Cairo until Friday to follow up on some of those companies interested in our services.”

   Peter Slamaker, Managing Director, ICM

**WHY NOT BRING A GROUP?**

Register 3+ delegates and save 15% off the standard price! Email us at enquiry@iqpc.ae now to find out more.

---

**CONFERENCE DOCUMENTATION**

If you cannot make the conference, you can still access all presentations delivered throughout the conference days for just US$450, post event. Contact us on +971 4 364 2975 for further details.

**IQPC’S STANDARD TERMS AND CONDITIONS**

**PAYMENT**
- Payment is due in full at the time of registration and includes lunches, refreshments and detailed conference materials. Payment prior to conference is mandatory for attendance.
- Your registration will not be confirmed until payment is received and may be subject to cancellation.
- If a booking is received 10 working days before the conference a credit card number will be required to confirm your place, likewise if full payment has not been received before the conference date.
- Any respective payment charges to be borne by the payer. Please ensure that IQPC receives the full invoiced amount.

**DISCOUNTS**
- All Early Bird Discounts require payment at time of registration and before the cut-off date in order to receive any discount.
- Any other discounts offered by IQPC (including team discounts) require payment at the time of registration.
- Discounts cannot be combined with any other offers.

**CANCELLATION, POSTPONEMENT AND SUBSTITUTION POLICY**
- You may substitute delegates at any time by providing reasonable advance notice to IQPC.
- For any cancellations received in writing not less than eight (8) days prior to the conference, you will receive a 100% credit to be used at another IQPC conference which must occur within one year from the date of issuance of such credit. An administration fee of 10% of the contract fee will be retained by IQPC for all permitted cancellations. No credit will be issued for any cancellations occurring within seven (7) days (inclusive) of the conference.
- In the event that IQPC cancels an event for any reason, you will receive a credit for 100% of the contract fee paid. You may use this credit for another IQPC event to be mutually agreed with IQPC, which must occur within one year from the date of cancellation.
- In the event that IQPC postpones an event for any reason and the delegate is unable or unwilling to attend on the rescheduled date, you will receive a credit for 100% of the contract fee paid. You may use this credit for another IQPC event to be mutually agreed with IQPC, which must occur within one year from the date of post postponement.
- Except as specified above, no credits will be issued for cancellations. There are no refunds given under any circumstances.
- IQPC is not responsible for any loss or damage as a result of a substitution, alteration or cancellation/postponement of an event. IQPC shall assume no liability whatsoever in the event this conference is cancelled, rescheduled or postponed due to a fortuitous event, Act of God, unforeseen occurrence or any other event that renders performance of this conference impracticable, illegal or impossible. For purposes of this clause, a fortuitous event shall include, but not be limited to: war, fire, labour strike, extreme weather or other emergency.

**PROGRAMME CHANGES**
- Please note that speakers and topics were confirmed at the time of publishing. However, circumstances beyond the control of the organiser may necessitate substitutions, alterations or cancellations of the speakers and/or topics. As such, IQPC reserves the right to alter or modify the advertised speakers and/or topics if necessary. Any substitutions or alterations will be updated on our website as soon as possible.

**YOUR DETAILS**
- Please email our database manager at enquiry@iqpc.ae to inform us of any incorrect details which will be amended accordingly.
