

## Grayhill, Inc to Display the Series 04J at Military Vehicles Exhibition & Conference

*LaGrange, IL –*

Grayhill, Inc. announces its plans to exhibit at the **Military Vehicles Exhibition & Conference** to be held at the Cobo Convention Center in Detroit, Michigan, from August 11-12. Military Vehicles Exhibition & Conference is the largest stand-alone military vehicles exhibition in the US displaying the latest vehicles (wheeled and tracked), components, and after-market products in the light, medium, and heavy categories.

Grayhill, Inc., exhibiting in Booth #618, will display its newly released Series 04J, their toughest joystick with an integrated pushbutton on a single shaft. The 04J is designed and manufactured to meet mil-spec standards for mechanical shock and moisture seal, making it ideal for any application where vibration or contamination are a concern. This rugged and reliable joystick will survive in military vehicles, construction equipment and industrial controls such as on CNC machines.

"We are delighted that Grayhill, Inc. is joining us for the largest gathering of military vehicles professionals, at IDGA's Military Vehicles Exhibition," says Michael Gallo, Managing Director of IDGA Exhibitions. "Grayhill is launching a terrific new product in its Series 04J at the show. We look forward to helping them further connect the Grayhill brand to the vehicles community."

### ***About Grayhill, Inc.***

Grayhill, Inc. is a leading designer and manufacturer of customized user interface solutions, switches, rugged mobile computers, and electronic components. These products include control panels, keypads, rotary switches, encoders, joysticks, pushbuttons, I/O modules, and DIP switches. Since its founding in 1943, the privately held company has been committed to providing top-quality solutions for a wide range of applications in the defense, aerospace, medical, agriculture, construction, automotive, and electronics industries. With headquarters just outside of Chicago, and multiple state-of-the-art facilities around the world, Grayhill's team has the engineering, development and manufacturing expertise to deliver both standard and customized products quickly and cost-effectively.
