FOR IMMEDIATE RELEASE

All-In-One Parts Washer Resource Catalog

“Selecting the right parts washer” and “Choosing your cleaning action” introduces you to valuable information and helpful tips in the recently updated Graymills parts washer catalog.

In addition to guiding the user through the parts washer/cleaning fluid selection process, it displays the full line of aqueous, solvent, ultrasonic and bioremediation parts washing equipment available from Graymills. The catalog highlights parts washer’s features and specifications, including a cleaning fluid reference chart for identifying specific applications.

The catalog is a valuable resource with a step-by-step selection process and a wide range of parts washing options. Free for the asking at 888-472-9645 or email at info@graymills.com.
