

Integrated C4ISR for M-ATV - See a demo at Sechan Electronics Inc. Booth # 423 at the Military Vehicles Exhibition & Conference

Lititz, PA –

Sechan Electronics Inc. announces its plans to display and demonstrate the Synexxus' Electronic Keel – an Integrated C4ISR System at the **Military Vehicles Exhibition & Conference** to be held at the Cobo Convention Center in Detroit, Michigan, from August 11-12.

Visit Sechan Electronics Inc., exhibiting in Booth #423 to see as part of their display the integrated, networked display and control of communications, weapons and sensors for military vehicles in a single system – Synexxus' Electronic Keel. Currently deployed in Iraq the E-Keel reduces space, weight and power requirements in vehicles by providing a single system for accessing C4ISR and system data in military vehicles with an open-architecture, that provides true plug-and-play capability, including mesh networking support for vehicle-to-vehicle and vehicle-to-dismount networking.

Sechan Electronics Inc. is the collaborative designer and exclusive manufacturer of the Synexxus, Inc.'s *E-Keel*, incorporating Sechan's patented cooling technology and design innovations to deliver superior performance with minimal impact on space, weight and power SWAP requirements within the vehicle.

SECHAN will also display other military systems currently being manufactured at their facility in Lancaster County Pennsylvania, further demonstrating their design and test (functional and environmental) capabilities as well as manufacturing expertise.

About Sechan Electronics , Inc.

Sechan Electronics Inc. is a 100% employee-owned small business dedicated to the cost-effective design, manufacture, qualification and production testing of high reliability and military electronic assemblies and systems as both a Prime Contractor to the Department of Defense and Defense Original Equipment Manufacturers. With more than 25 years in the industry, Sechan has won a number of awards including Boeing Small Business Supplier of the Year. Design and manufacturing capabilities extend from hand-held radios to missile and decoy launch systems and from unmanned subsurface targets to vetronics and avionics. Certifications include: CMMI Level 3, ISO:9001-2000, and AS9100.

"We are delighted that Sechan Electronics is joining us for the largest gathering of military vehicle professionals, at IDGA's Military Vehicles Exhibition," says Michael Gallo, Managing Director of IDGA Exhibitions. "Sechan Electronics is displaying the E-Keel system at the show, which will demonstrate their capabilities and highlight their technologically advanced design and manufacturing ability"
