An agenda designed for the buy side by the buy side

Dear Colleagues

In light of new regulations, increasing fragmentation and changing market structures, there is no doubt your role as equity trading head is becoming progressively complex.

In order to offer you a buy side focused agenda that solves your biggest trading challenges, we have conducted 70+ research interviews with senior figures from across the industry. I'd also like to thank our buy side advisory board, listed on the right.

With senior regulators, leading buy side, sell side, venues and technology partners all exclusively under one roof at one time, TradeTech Asia gives you the opportunity to discuss with your peers and shape the future of the market.

With over 65 leading buy side perspectives and interactive sessions dedicated to bonds and derivatives trading issues, you can be sure to walk away with the right solutions for your trading desk.

Key highlights from the agenda include:

- **Global Heads of Trading:** Hear Pioneer Investments Management, AXA Investment Managers and Allianz Global Investors discuss the impact of commission unbundling on the market and the preparation needed to effectively comply with the new regulations
- **Asian Heads of Trading:** Question BNP Paribas FIN'AMS, Allianz Global Investors, HSBC Global Asset Management and Robeco discuss the future of the Asian trading landscape
- **Country Clinics:** Debate with leading buy side from India, Australia, Japan and China give a market update
- **Hong Kong – Shanghai Connect Project:** Will the project be the next ASEAN link?

Do not miss the largest equity trading conference that brings together the entire equity trading value chain.

I look forward to welcoming you in Singapore this November!

Warm regards,
Mitha Srinivasan

Engage

Interactive formats that deliver a captivating experience

In this innovative and interactive format, spend 20 minutes listening to a best-practice case study before the speaker challenges you to find a solution to one of his key unsolved challenges. You'll then engage in a small interactive roundtable discussion before each group presents its conclusions to the audience. Take away different approaches to the same challenge from your fellow industry peers!

These informal subject-specific roundtables give you a unique opportunity to drill down into the details of what technologies can help you with compliance, cost reduction and best execution. Take the opportunity to probe the knowledge and expertise of industry market leaders. Each roundtable is limited to 10 people for maximum interaction and is designed for you to meet like-minded peers and source practical solutions collaboratively. An exceptional way to genuinely get to grips with your key challenges.

Join the interactive country clinics and hear from industry experts from **India, Japan, China & Australia**. This session will give you an in depth understanding of region's market structure, regulatory framework and how its market players are finding liquidity

Design the conference agenda yourself and bring to light the next big opportunity or challenge that you'll be facing in your organisation. At the end of Day 1, reflect on the next big thing you're facing that hasn't yet been addressed and put your suggestion into the Unconference Box. The next day, the most popular topics will be chosen for our interactive roundtables. A unique opportunity to prepare for the next big step-changes in your industry.

Macquarie's activities are subject to scrutiny by other regulatory agencies around the world.

Macquarie's management approach fosters an entrepreneurial culture among staff. Strong prudential management is fundamental to this approach. Robust risk management practices are embedded in business unit management with central oversight of credit, market, funding, compliance and operational risk. These, together with a strong and committed team, are key drivers of Macquarie's success.

Founded in 1969, Macquarie now employs more than 14,200 people in 28 countries. At 31 March 2012, Macquarie had assets under management of \$US339 billion.
